You should take a quick peek and give me any comments (not sure if Alice is going to ask you or not) -- but I'd welcome any input--- :)
Are you tired of school yet??

- Update on the FFS - Scott Thompson
- High-res cores / mass balance calculations - Solomon Gbondo-Tugbawa
- Statistical analyses / conditional simulation / bathymetry - John Kern/Ed Garvey
- Big picture / CSM - Ed Garvey

There is still some question as to which of these we will actually submit. We may be reducing the list.

Bruce,
Who will be submitting the below abstracts? I'd like a name for each abstract of the person who will be responsible for submitting it on 16 Jun 10. Thanks --

Betsy/Jim,
Do you all plan to submit any abstracts for the BAT 2011 conference? Note they are due for review by 16 Jun 10 - please let me know if you are - who and topic.

Regards, Beth

Hi,

We're planning up to 4 abstracts on the following general topics:

- Update on the FFS
- High-res cores / mass balance calculations
- Statistical analyses / conditional simulation / bathymetry
- Big picture / CSM

Anticipating resolution of issues between physical and chemical lines of

evidence, we'll approach Ed Garland to see whether they would like to co-author with us on the final topic.

All abstracts ultimately proposed will be submitted for review no later than June 16.

Scott -- remind me - is anyone planning to submit abstract for 2011 BAT conference? Abstracts are due 30 Jun 10. So a 2 week review period would mean we need them by 16 Jun 10. I got my conference notice several weeks ago with abstract deadline.

Please advise -- thanks.
